

How I'm supporting Financial Planning Week 2011...

21 - 27 Nov 2011

Martin Bamford CFP^{CM}, Informed Choice.

"Financial Planning Week is such an important campaign because financial knowledge and skills are invaluable. Getting in control of your finances can make a remarkable difference. It can radically improve your quality of life, reduce anxiety and help you realise important life goals.

We are getting involved with Financial Planning Week because we want to help raise the profile of this important initiative and spread the Financial Planning message in our part of the country. Whilst our clients receive a lot of ongoing financial education once they engage, most people do not benefit from a working relationship with a Financial Planner.

INTRODUCTION TO FINANCIAL PLANNING WORKSHOP

We're hosting an Introduction to Financial Planning Workshop on Thursday 24th November 2011. This workshop will provide attendees with a very practical insight into the elements of a comprehensive Financial Plan, including lifetime cashflow forecasting and the impact of various scenarios life can throw our way."

What are you doing to support Financial Planning Week 2011?
